NOTES TO THE MID-YEAR CONSOLIDATED FINANCIAL STATEMENTS**For the third quarter of 2025**

(These notes form part of and should be read in conjunction with the accompanying consolidated financial statements)

1. Nature of operations**1.1. Overview**

Central Container Joint Stock Company (the “Company”) was converted from Central Container Company Limited (a limited liability company that was first granted a Business Registration Certificate on 13/06/2002 by the Da Nang Department of Planning and Investment). Since its establishment, the Company has amended its Business Registration Certificate ten times, with the latest amendment dated 03/07/2025, and its new enterprise code being 0400424349. The Company is an independent accounting entity, operating in compliance with the Enterprise Law, its Charter, and other relevant regulations.

1.2. Principal scope of business:

- Warehouse operation and management;
- Container agency services, shipping agency services, multimodal freight forwarding agency services, and organization of consolidated transportation for import-export and transit goods. International multimodal transportation. Airline ticket agency services;
- Maritime brokerage for domestic and international shipping lines;
- Container cleaning services.

1.3. Enterprise structure

The Company has one dependent branch and one subsidiary, i.e. Qui Nhon Container Joint Stock Company, as detailed below:

Branch/Subsidiary	Address	Scope of business	Ownership and voting rights
Branch in Quy Nhon	83 Hai Ba Trung Street, Quy Nhon Ward, Gia Lai Province	Provision of transportation-related support services	
Qui Nhon Container Joint Stock Company – Subsidiary	83 Hai Ba Trung Street, Quy Nhon Ward, Gia Lai Province	Provision of transportation-related support services	83.8%

2. Accounting period, currency used in accounting

The Company’s annual accounting period starts on 01 January and ends on 31 December.

Consolidated financial statements and accounting transactions are expressed in Vietnamese Dong (VND).

3. Applied accounting standards and accounting system

The Company adopts Vietnamese Accounting Standards and Vietnamese Corporate Accounting System as guided in Circular No. 200/2014/TT-BTC dated 22/12/2014 and Circular No. 53/2016/TT-BTC dated 21/3/2016 providing amendments and supplements to certain articles of Circular No. 200/2014/TT-BTC promulgated by the Ministry of Finance.

These consolidated financial statements are prepared and presented in accordance with Circular No. 202/2014/TT-BTC dated 22/12/2014 issued by the Ministry of Finance.

4. Summary of significant accounting policies**4.1 Principles and methods for preparing consolidated financial statements**

**NOTES TO THE MID-YEAR CONSOLIDATED FINANCIAL STATEMENTS
(cont'd)****For the third quarter of 2025**

(These notes form part of and should be read in conjunction with the accompanying consolidated financial statements)

4.1.1 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries.

Subsidiaries are entities controlled by the Company. Control is achieved where the Company has the power to govern the financial and operating policies of an investee entity so as to obtain benefits from its activities. The financial statements of subsidiaries are consolidated from the effective date of control up to the date of cease to control.

The financial statements of the subsidiaries are prepared for the same year as the parent company, using consistent accounting policies. Adjustments are made for any differences in accounting policies that may exist to ensure consistency between the subsidiaries and the Company.

All intra-company balances and transactions, unrealized profits or losses arising from intra-company transactions, have been eliminated in full when preparing the consolidated financial statements.

4.1.2 Business combination

The assets, liabilities, and contingent liabilities of a subsidiary are recognized at their fair value on the acquisition date. Any excess of the purchase price over the total fair value of the acquired assets is recognized as goodwill. Any deficiency between the purchase price and the total fair value of the acquired assets is recognized in the income statement for the accounting period in which the subsidiary acquisition occurs.

4.1.3 Method of recognizing non-controlling interests

Non-controlling interests represent the portion of net assets in a subsidiary not held by the Company and are presented within equity in the consolidated balance sheet, separately from parent shareholders' equity. The value of non-controlling interests in the net assets of consolidated subsidiaries includes: Non-controlling interests at the acquisition date, measured at the fair value of the subsidiary's net assets at the acquisition date; non-controlling interests in changes in total equity from the acquisition date to the beginning of the reporting period; and non-controlling interests in changes in total equity occurring during the reporting period. Losses in subsidiary are respectively attributed to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Non-controlling interests represent the portion of profit or loss in a subsidiary not held by the Company. They are determined based on the non-controlling interest percentage and the subsidiary's profit after corporate income tax and are presented as a separate line item in the consolidated income statement.

4.2 Exchange rate differences applied in accounting

Transactions denominated in foreign currency are translated into VND using the actual exchange rate announced by the commercial bank where the Company trades on the date of the transactions.

At the balance sheet date, monetary items denominated in foreign currency that are classified as assets are revaluated using the buying exchange rate and monetary items denominated in foreign currency that are classified as liabilities are revaluated using the selling exchange rate of the commercial bank where the Company regularly trades. Foreign currency deposits in banks are revaluated using the buying exchange rate of the bank where the Company opens foreign currency accounts.

Exchange rate differences are realized in accordance with Vietnamese Accounting Standard No. 10 "The Effects of Changes in Foreign Exchange Rates". Accordingly, foreign exchange differences arising during the year and those resulting from the revaluation of the closing balances of monetary items denominated in foreign currencies are recorded in the financial results for the year.

**NOTES TO THE MID-YEAR CONSOLIDATED FINANCIAL STATEMENTS
(cont'd)****For the third quarter of 2025**

(These notes form part of and should be read in conjunction with the accompanying consolidated financial statements)

4.3 Cash and cash equivalents

Cash includes cash on hand and bank demand deposits.

All short-term investments which are collectible of 3 months or less as from purchasing date, that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value at reporting date shall be recognized as cash equivalents.

4.4 Receivables

Receivables include trade receivables and other receivables:

- Trade receivables are trade-related amounts arising from trading activities between the Company and its customers.
- Other receivables include non-trade amounts which are not related to trading activities, intra-company transactions.

Receivables are recorded at cost less provision for doubtful debts. Provision for doubtful debts represents the estimated loss amounts at the balance sheet date for overdue receivables which the Company has claimed many times but still has not collected yet or which have not been overdue but the debtor has been in the state of insolvency, doing dissolution procedures, missing or running away.

4.5 Inventories

Inventories are stated at the lower of cost and net realizable value.

Value of inventories is calculated using the weighted average method and accounted for using the perpetual method. Cost of raw materials comprises costs of purchase, costs of conversion and any directly attributable costs of bringing the inventories to their present location and condition.

Net realizable value is the estimated selling price less the estimated costs of completing the products and the estimated costs needed for their consumption.

Provision for decline in value of inventories is made for each kind of inventories when the net realizable value of that kind of inventories is less than cost.

4.6 Tangible fixed assets**Cost**

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of tangible assets comprises their purchase price and all the costs incurred by the Company to acquire those assets as of the time of putting such assets into the ready-for-use state. The costs incurred after the initial recognition of tangible fixed asset shall be recorded as increase in their historical cost if these costs are certain to augment future economic benefits obtained from the use of those assets. Those incurred costs which fail to meet this requirement must be recognized as production and business expenses in the period.

**NOTES TO THE MID-YEAR CONSOLIDATED FINANCIAL STATEMENTS
(cont'd)****For the third quarter of 2025***(These notes form part of and should be read in conjunction with the accompanying consolidated financial statements)****Depreciation***

Depreciation of tangible fixed assets is calculated on a straight-line basis over their estimated useful lives. The depreciation period is in conformity with Circular No. 45/2013/TT-BTC dated 25/4/2013 by the Ministry of Finance. Details are as follows:

<u>Kinds of assets</u>	<u>Depreciation period (years)</u>
Buildings, architectures	05 - 25
Machinery, equipment	05 - 10
Motor vehicles	05 - 10
Office equipment	04 - 10

4.7 Intangible fixed assets***Cost***

Intangible fixed assets are stated at cost less accumulated amortization.

The cost of intangible fixed assets comprises all the costs incurred by the Company to acquire those assets as of the time of putting such assets into the ready-for-use state.

Amortization

Intangible fixed assets being land use rights are not subject to amortization.

Other intangible fixed assets are amortized on a straight-line basis over their estimated useful lives. The amortization period complies with Circular No. 45/2013/TT-BTC dated 25/04/2013 by the Ministry of Finance.

The amortization periods for intangible fixed assets at the Company are as follows:

<u>Kind of assets</u>	<u>Amortization period (years)</u>
Computer software	2 - 5

4.8 Prepaid expenses

Prepaid expenses are reported as short-term or long-term prepaid expenses. These are expenditures that have been incurred but related to the operations of many accounting periods. The Company's primary prepayments are as follows:

- Tools and instruments put in use: Allocated in accordance with the straight-line method for a period of 3 years or less.
- Land rental: Allocated using the straight-line method over the lease term.
- Other prepaid expenses: the Company selects appropriate method and criteria of allocation over the period in which economic benefits are expected to be received based on the nature and extent of the prepaid expenses.

4.9 Payables

Payables include trade payables and other payables.

NOTES TO THE MID-YEAR CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

For the third quarter of 2025

(These notes form part of and should be read in conjunction with the accompanying consolidated financial statements)

- Trade payables are trade-related amounts, arising from trading activities between the company and its suppliers.
- Other payables are non-trade amounts, which are not related to trading activities, intra-company transactions.

Payables are recognized at cost and reported as short-term or long-term payables based on the remaining terms at the balance sheet date.

Payables are monitored according to their creditors, principal terms, remaining terms and original currencies.

4.10 Accrued expenses

Accruals are recognized for amount to be paid in the future for goods and services received, whether or not billed to the Company.

4.11 Loans and finance lease liabilities

Loans and finance lease liabilities are recorded at cost and classified into current and non-current liabilities based on the remaining terms at the balance sheet date.

The Company monitors loans and finance lease liabilities according to their creditors, loan agreements, principal terms, remaining terms and original currencies.

Borrowing costs

Borrowing costs comprise interest and other costs that the Company incurs in connection with the borrowing of funds. Borrowing costs are recognized as an expense in the period in which they are incurred, except to the extent that they qualify the conditions to be capitalized in accordance with Accounting Standard "Borrowing costs".

Borrowing costs associated with a particular borrowing for the purpose of obtaining a qualifying asset shall be capitalized as part of the cost of that asset. For general borrowing funds, the borrowing costs eligible for capitalization in the period shall be determined according to the capitalization rate, which is the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period.

Capitalization of borrowing costs shall be suspended during extended periods in which it suspends active development of a qualifying asset, except to the extent that the suspension is necessary. Capitalization shall be ceased when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete.

4.12 Owners' equity

Share capital represents the amount of capital actually contributed by shareholders.

Profit distribution

Profit after corporate income tax is available for appropriation to funds and to shareholders in accordance with the Company's Charter or as resolved by the General Meeting of Shareholders.

Dividends paid to shareholders shall not exceed the undistributed profit after tax, taking into account non-monetary items within undistributed post-tax profits that may impact cash flow and the Company's ability to pay dividends.

4.13 Recognition of revenue and other income

**NOTES TO THE MID-YEAR CONSOLIDATED FINANCIAL STATEMENTS
(cont'd)****For the third quarter of 2025***(These notes form part of and should be read in conjunction with the accompanying consolidated financial statements)*

- Revenue from sales and service provision is recognized to the extent that it is probable to obtain economic benefits, it can be reliably measured and the following conditions are also met:
 - ✓ Revenue from the sale of goods is recognized in the income statement when the significant risks and rewards of ownership have been transferred to the buyer and there are no significant uncertainties regarding recovery of the consideration due or the likely return of goods;
 - ✓ Revenue from service provision is recognized when the services have been rendered. In case that the services are to be provided in many fiscal years, the determination of revenue in each period is done on the basis of the service completion rate as of the balance sheet date.
- Revenue from financing activities is recognized when revenue is determined with relative certainty and it is possible to obtain economic benefits from the transactions.
 - ✓ Interest is recognized on the basis of the actual term and interest rates;
 - ✓ Dividends and profits shared are recognized when the Company has the rights to receive dividends or profit from the capital contribution. Stock dividends are not recognized as financial revenue. Dividends received in the period before investment date shall be recorded as a decrease in value of investment.
- Other income is the income derived out of the Company's scope of business and recognized when it can be measured reliably and it is probable that the economic benefits associated with the transaction will flow to the Company.

4.14 Cost of goods sold

Cost of products, goods sold and services rendered shall be recognized in the correct accounting period in accordance with the matching principle and conservatism principle.

Costs of inventories and services rendered which are incurred in excess of the ordinary level shall be charged out to cost of goods sold in the period, not to the production cost of goods and services.

4.15 Financial expenses

Financial expenses reflect expenses or losses related to financial investment activities, including interest expenses, losses incurred from foreign currency sales, foreign exchange losses, and other expenses attributable to investing activities.

4.16 Selling expenses, administrative expenses

Selling expenses reflect expenses actually incurred in the process of selling products, goods, and rendering services.

Administrative expenses reflect expenses actually incurred related to the overall administration of the Company.

4.17 Current corporate income tax expense, deferred corporate income tax expense

Corporate income tax expenses include current income tax and deferred income tax.

Current income tax is the tax amount computed based on the taxable income in the period at the tax rates ruling at the balance sheet date. The difference between taxable income and accounting profit is due to the adjustments of temporary differences between tax and accounting figures as well as those of non-taxable or non-deductible income and expenses.

**NOTES TO THE MID-YEAR CONSOLIDATED FINANCIAL STATEMENTS
(cont'd)****For the third quarter of 2025**

(These notes form part of and should be read in conjunction with the accompanying consolidated financial statements)

Deferred income tax is determined for temporary differences at the balance sheet date between the tax base of assets and liability and their carrying amount for financial reporting purpose.

4.18 Financial instruments**Initial recognition***Financial assets*

A financial asset is recognized initially at cost plus transaction costs directly attributable to the acquisition of the asset. The Company's financial assets comprise cash on hand, cash at bank, trade receivables, and other receivables.

Financial liabilities

A financial liability is recognized initially at cost plus transaction costs directly attributable to the issuance of such liability. The Company's financial liabilities comprise loans, trade payables, accrued expenses, and other payables.

Subsequent measurement

Currently, there has been no requirement for subsequent measurement of financial instruments.

4.19 Applicable tax rates and charges payable to the State Budget

- Value-added tax (VAT): A 10% VAT rate is applied to transportation services. From 01/01/2025 to 30/06/2025, this activity was subject to an 8% VAT rate in accordance with Resolution No. 174/2024/QH15 dated 30/11/2024 of the National Assembly and Decree No. 180/2024/NĐ-CP dated 31/12/2024 of the Government.
- Corporate income tax (CIT): A CIT rate of 20% is applied.
- Other taxes and obligations are fulfilled in accordance with the prevailing regulations.

4.20 Related parties

Parties are considered to be related if one party has the ability to (directly or indirectly) control the other party or exercise significant influence over the other party in making financial or operational decisions.
